## PROFESSIONAL SUMMARY

Dedicated Front-End Developer with 3+ years of experience building responsive and user-friendly web applications. Experienced in building everything from landing pages to large-scale SaaS platforms. I also have strong knowledge of front-end architecture and have built many real-world projects with clean, efficient, and maintainable code.

## EXPERIENCE

### Front-End Developer

Qzency Ltd.

📅 Mar. 2025 – Ongoing.

*Onsite • Mirpur DOHS, Dhaka-1216, Bangladesh.*

- Developing a large scale SaaS platform [ZOYEQ](#) with an advanced website builder, SSO authentication, and scalable front end architecture.
- Collaborating with designers and backend teams, performing competitor analysis to deliver pixel-perfect, user-friendly UI.
- Optimized performance following best practices to improve load times and user experience.
- Leading front-end R&D to improve design, UX, and code efficiency.
- Creating custom, reusable components with a focus on scalability and maintainability.
- Managing a large codebase following engineering best practices.

### Jr. Front-End Developer

Sundarban Courier Service (Pvt.) Ltd.

📅 Sep. 2023 – Feb. 2025 (1.5 Years)

*Onsite • Uttara, Dhaka-1230, Bangladesh.*

- Built and maintained Operation Control Room software to optimize daily vehicle operations.
- Developed a Branch & Office Rent Management System for improved data handling.
- Contributed to corporate and customer dashboards, enhancing UX and performance.
- Created responsive UIs with React, Next.js, and GraphQL across various internal platforms.
- Worked closely with backend developers to implement and optimize GraphQL for data fetching and management.

## SKILLS

**Front-End:** TypeScript, React, Redux, Next.js, CSS3, Sass, Tailwind CSS, Ant Design, Radix UI, Material UI.

**Back-End (Familiar):** Node.js, Express.js, MongoDB, RESTful APIs, JWT.

**Tools:** Git, Jira, Webpack, TanStack Query, Postman, Apollo GraphQL, Framer Motion.

**Core Strengths:** Agile Development, Problem-Solving, Effective Communication, Team Collaboration, Attention to Detail, Adaptability, and Politeness

## PROJECTS

### [TripZip.ai](#) – AI Powered Travel Itinerary Planner

TripZip is a modern AI powered travel planning platform that creates personalized trip itineraries and helps you organize flights, accommodations, and activities all in one place.

Technologies (Front-End):

TypeScript, Next.js, TailwindCSS, Shadcn, Framer Motion, React Hook Form, ZOD, Puppeteer, Drag & Drop .

Key Features:

- Built an advanced authentication system with referral program, social login and email login.
- Developed a smart itinerary builder with city rearrangement using drag and drop, designed in a scalable architecture.
- Implemented advanced flight management including domestic, international and multi connecting flights.
- Created a complete referral system with withdrawal feature and wallet management.
- Added support ticket system with real time chat functionality.
- Developed an advanced blog platform for content publishing.
- Built a user profile section with multiple CRUD operations and account management features.

## EDUCATION

Bachelor of Science in Computer Science and Engineering  
Dhaka International University – DIU

 2021 – 2025

Diploma in Computer Technology  
Institute of Information Technology Bogura – IITB

 2015 – 2019
